PROFESSIONAL SUMMARY

A determined student who aims to combine both sides of the brain to develop unique solutions. My goal is to expand my expertise in psychology, tech and business to better understand how people interact & react to everything around them and what I can do to make a difference. I hope to bridge the gap between psychology and tech to create intuitive, seamless, and meaningful experiences. I am excited to bring my positive energy to an organization where I can pursue a challenging career that allows leadership development, real world application of skills and personal growth.
